Therapy Dog Policy

Beginning in August 2018, Pica & Associates will be training a Therapy Dog at our St. Charles location. Pica & Associates is committed to the safety and comfort of our patients, and therefore would like to make all patients aware of the presence of a Therapy Dog in the office. Additionally, Pica & Associates is committed to the following:

- To enroll the Therapy Dog and complete all courses, training, and work hours necessary to receive a valid Therapy Dog certification.
- To keep the Therapy Dog up-to-date on all vaccinations at all times.
- To hold the proper liability insurance for the Therapy Dog in the workplace.
- To make reasonable accommodations and changes for any patients or guardians who may have allergies.

Any questions, concerns, allergies, or other issues should be addressed to Pica & Associates office staff in writing.
